For Immediate Release

ABC International presents Air Canada Decorative Crest B787 Program

Naples June 2014,

ABC International design team's aim is to provide Airlines with another way to customize their cabin interiors and add a unique quality to its overall look and feel.

AIR CANADA Decorative Crest Program was developed in three different variants for Boeing 787 fleet, in order to spruce up their cabin interiors. ABC designed, manufactured, and certificated the new Decorative Crests which met the endorsement of Air Canada, as the outcome is a high-quality cut and milled aluminum crest, representing the airline's maple leaf logo and script.

ABC International offers a full package approach, starting from the company brand logo we develop and propose a dedicated 3-D design and once approved we industrialize the crest for manufacturing and deliver it for installation. ABC's overall goal for its decorative crest program is all encompassing.

It's up to you to judge the fruits of our efforts...

Aviation Business Consultants International Srl (ABC INTERNATIONAL) is a company providing qualified Engineering and Managerial Services to the Aviation Industry, either OEMs, Airlines, Leasing companies or MROs. ABC INTERNATIONAL is an EASA approved AP-DOA Company (approval number AP-346) able to certify and approve any minor/major modification to aircraft cabin interiors by means of Engineering Order/Service Bulletin or STC – Supplemental Type Certificate. ABC INTERNATIONAL is glad to highlight its capability in design, manufacturing, certification and installation approval of ABC Decorative Crest for airline cabins. Starting from the company brand logo ABC is able to develop a dedicated 3D design style proposal and once approved the final design, industrialize it for manufacturing and deliver the decorative crest ready for installation with all the relevant hardware, EASA approved data and Form One.
