

Press Release

From design to production: ABC International inaugurates the new manufacturing facility in Lioni.

The Italian company has officially inaugurated its new plant dedicated to the production of certified cabin interior components.

Lioni (AV), Italy - September 25, 2025 - ABC International has reached an important milestone in its expansion strategy with the inauguration of a **new manufacturing facility in Lioni**, Avellino, centrally located in Campania (Southern Italy).

This opening marks a decisive step in the company's growth: from being a qualified design partner in the aviation sector, **ABC International now expands its role to include manufacturing**, thereby strengthening its position within the international aviation supply chain.

The new facility, spanning **over 300 square meters**, is equipped with innovative machinery and will allow the production of:

- **Cabin monuments** (movable class divider, partition and fixed divider, stowage, coatroom, galleys, cabinets, lavatory and doghouses)
- **Upholstery products** (seat covers, cushions, carpets, curtains, antimacassars and decorative elements)
- **Placards and external markings**
- **Small series and customized parts**, to support short-term programs by taking advantage of 3D printing technology.
- **Cabin products** (Life vest rigid box, seat track covers)
- **Branding elements**

The inauguration represents not only a significant step in the company's international growth, but also a substantial investment in the region, generating employment and promoting the local economy.

ABC International's CEO, Rodolfo Baldascino, stated: "With the opening of the new manufacturing facility in Lioni, we are taking a strategic leap: from an internationally recognized design organization, we are also becoming a certified manufacturer. This enables us to provide our customers with complete solutions, from design to production, delivering greater added value through integrated end-to-end services".

Olindo Spatola, VP Engineering & HDO at ABC International, added: "The new facility in Lioni is

both a technological investment and a bridge between innovation and local community. With our engineering expertise and manufacturing capabilities, we aim to deliver high-quality solutions for the aviation industry, while also supporting regional growth and creating new opportunities for the people who live and work here”.

The new production site, designed in accordance with international standards, complies with **EASA PART-21G** requirements and has initiated the **POA** (Production Organization Approval) certification process, which is expected to be completed within the coming months.

About ABC International

ABC International is an EASA-DOA Company (EASA.21J.529) based in Naples, Italy, offering certification and modification services to the aviation industry players such as airlines, lessors, MROs and OEM's since 2009.
